## SANITARY CLEANER

## Uses

For specialised cleaning of floors and surfaces where there is acid/alkali build-up.

## Application

Can be applied to the surface to be cleaned by hand, in a spray bottle, or with a mopping unit. After a short contact time, deposits will be removed. Rinse with clean water after use.

## Dilution

Periodic cleaning: 100ml-1000ml:10lt water

To remove residual cement: Use undiluted

## Supplies

5lt container – P03305

## Note

Non-acid resistant concealed joints have to be soaked with clean water prior to cleaning. Not suitable for limestone and enamel.

## Storage

Protect from sunlight and do not expose to temperatures exceeding 50°C.

## Technical specifications

Description	Result
Colour	Yellowish
pH in concentrate	1.0 ± 0.5
Specific gravity at 20°C	1.080 g/ml

Specifications and details are subject to change without prior notice

## Compounds

- <4% Phosphoric acid
- <14% Sulphamic acid
- <2% amphoteric surfactant

## Hazardous components

- None
