

Powerstar Petrol / Diesel Range

Mobile High Pressure Washer - Cold Water

Mobile, Robust and reliable

These high-pressure cleaners are fully mobile, with all components mounted on sturdy steel base frames. In all cases the high-pressure pumps are directly coupled to either a petrol or diesel engine. Operation of the machine is controlled from the "trigger" type safety spray lance.

Key Features

- Sturdy steel chassis with roll cage for maximum component protection, as well as easy loading and off-loading.
- Direct drive system between pump and engine.
- Automatic "idling" facility on the petrol engine, whenever the spray lance is closed during operation (by-pass mode).
- Chemical injector, - venturi-type for "after-pump" injection of chemicals.
- Positive displacement piston pump, oil lubricated with 3 ceramic pistons, suction and pressure valves with stainless seats.

Options

- Key start on Powerstar 18/180 P&D.
- Petrol and diesel engines to customer.
- preference subject to compatibility.

Standard attachments

- Trigger type safety spray lance with 1080 mm long, straight spray pipe, 25° high pressure nozzle and nozzle protection cap.
- 10 meter flexible, heat insulated, metal- braided high-pressure hose with kink protection.
- 80 Mesh water filter, cartridge type.
- 3/4" water hose coupling

Technical Specifications

Description	Unit	Powerstar 18/180 P	Powerstar 18/180 D
Operating pressure	bar	180	180
Water volume	l/hour	1080	1080
Engine	type	Petrol	Diesel
Engine output	hp	13	10.3
Fuel tank capacity	litre	6.5	4.4
Dimensions	mm	910 x 810 x 890	910 x 810 x 890
Weight	kg	86	98
