

Entra-Clean HygienePlus

The washable doormat that actively kills germs

- Removes visible dirt and kills invisible microbes.
- HygienePlus means the mat is treated with the EU-registered biocide, BI-OME registered with OEKO-TEX® an antimicrobial and virus reducing technology. BI-OME works by effectively killing bacteria when contact is made with the mat.
- Although the treatment is a highly effective antimicrobial agent, it does not cause any skin irritations.
- A new concept in entrance matting.
- Improve floor level hygiene around your business – important whilst fighting Covid-19 and beyond.
- More sustainable – less frequent washing required, and on lower temperatures. Free of metals.
- Fully machine washable – with no reduction in active cleaning power for the life of the mat.
- Suitable for all facilities, in particular offices, hotels and leisure, retirement homes and healthcare settings.
- Reduces annoying odours caused by bacteria and fungi.
