

Hygiene is a Business Imperative

➤ Leaders in industrial cleaning

Welcome to Industroclean

Your business needs to be hygienic,
and hygiene is our business

Since 1968, Industroclean has been a leader in commercial cleaning products, delivering hygiene solutions to a range of leading South African businesses. Our wide product offering has every surface in your business covered, ensuring high hygiene standards. Always. We produce a collection of incredibly effective cleaning chemicals. We also stock some of the world's most admired cleaning machinery and offer spares, servicing, maintenance, and training. We know by keeping your business clean, your business can keep working 7 days a week, 365 days a year.

*BUSINESS HYGIENE IS
BUSINESS CONFIDENCE*

What We Offer

For over half a century, Industroclean has been a powerhouse in the commercial cleaning industry, delivering hygiene solutions to a range of leading South African businesses. We manufacture and distribute cleaning products and machinery of the highest quality around the country.

1.

CLEANING CHEMICALS

Effective cleaning often comes down to the products you use. We're proud to offer a highly effective chemical range, manufactured in our laboratory in Gauteng. Our cleaning chemicals are tailor-made for specific surfaces and applications. With a track record of 54 years, many businesses across the country trust Industroclean chemicals to do the job.

2.

JANITORIAL EQUIPMENT

If your business needs janitorial trolleys, we offer a range of compact, high-quality designs for professional cleaning environments.

These are particularly effective in healthcare, retail, and other commercial cleaning settings, and can be customized and fitted accordingly. The ergonomic designs are manufactured with premium quality materials for durability.

We stock both Filmop and Vileda trolleys, which are composed of strong but eco-friendly second-life plastic that is completely recyclable.

If you want to increase the hygiene standards of your business significantly, you need a cleaning machine. Not only does the automation of traditional tasks like mopping create a cleaner working environment, but it also drives down costs on labour and chemicals, saving time and optimising productivity.

3.

CLEANING MACHINES

Our offering includes floor care equipment such as professional scrubber driers, sweepers, vacuum cleaners, and high-pressure washers.

We offer the technologically advanced Nilfisk and Viper range, plus the complete Wap and Nilfisk professional range, including mobile and stationary hot- and cold-water high-pressure washers. If you need a machine to clean, we've got it.

CLEANING CONSUMABLES

Cloths, wipes, tools, signs, bins, and more – Industroclean offers a wide range of superior cleaning consumables. The range has been designed to work across several industries. We focus on providing our customers with quality products that deliver cost savings and cleaning efficiency without compromising on high standards of hygiene.

4.

// Our Customers

From factories and corporate offices to grocery retailers and hospitals, Industroclean is the preferred specialist cleaning partner to many businesses. With our comprehensive range of products, machinery, and methodology, we can offer your business the tools it needs to maintain impeccable hygiene.

TESTIMONIALS

// The promptness, friendliness, and professionalism of the sales consultants from Industroclean is excellent!

I always appreciate the fast response that I receive from Industroclean, whether it be via an email, text or a call, my communication always gets acknowledged and a reply sent; I never have to follow up.

The fact that I only need to communicate with one person directly instead of 2 or 3 different channels also makes dealing with Industroclean a hassle-free process and cuts out the frustration of dealing with various parties.

The service delivery of products is quick, and the quality of products are of a high standard. On-site training is also available which is always beneficial.

//
- Shayleen Newman
Housekeeping Manager: Faircape Group

// Building a relationship with your supplier over a long period enables better communication and a clear understanding of the best product for your needs - Industroclean understands the importance of this.

Our Food Safety Audit results say it all: Excellent product equals excellent hygiene and outstanding service. Industroclean is trustworthy every time!

Industroclean cleaning chemicals are excellent and due to the fact that they are concentrated, they deliver excellent hygiene results and are cost effective.

- Rita Cuttings
Food Safety Manager: Springbok Superspar

// My experience with Industroclean has been excellent. The sales team treat you as a customer needs to be treated - with urgency and respect. The Industroclean team ensures that they meet your needs within deadlines and requested time frames.

The positive impact experienced since using Industroclean's products and services is that we consistently meet the requirements needed to back up our food safety standards.

- Adomian Klasen
Food Safety Supervisor: AVI Products

A red tractor is being cleaned with a high-pressure water hose in a vineyard. The tractor is parked on a dirt path, and the water spray is directed at its front grille and headlights. The vineyard rows are visible in the background.

Hygiene keeps the wheels of industry turning.

More About Us

A powerhouse in industrial cleaning

We have led the industrial cleaning industry for over 50 years, offering businesses quality chemicals and machinery, backed by expertise and efficient service. We're constantly fine-tuning our offering to stay ahead of the changing needs of our customers and market. Our innovative cleaning products and solutions are backed by a strong sales and support network across the country. This means you always have access to technical support and spare parts. Everything we do ensures your business starts and stays hygienic without interruptions.

Who We Are and What We Stand For

Hygiene is our priority, so doing business can be yours

Our family business was built on values like commitment, trust, and loyalty and continues to be guided by them today. Our leadership team is strong, young, and female, something we think sets us apart in the industry. Industroclean can provide everything you need to maintain your business' cleanliness, pass audits and create a safe, hygienic space. We're proud to partner with the best global and local brands in cleaning, and our impressive client list is proof that we deliver, on time, every time. We're able to do this across South Africa, thanks to our national network of servicing, stock, and expertise.

Our Purpose

Our purpose is to deliver the best possible customer experience and outcomes by providing dynamic, adaptable solutions to everyday cleaning challenges in commercial environments.

We've been doing this for 54 years, as a pioneer in industrial and commercial cleaning across Africa. We understand that a safe and clean workplace is imperative to a successful business. Authorities and the public hold businesses accountable for their hygiene standards, and maintaining the highest hygiene standards is paramount to your business' success.

Our specialised machinery, expert technical team, innovative chemicals, and quality cleaning consumables have led to superior hygienic environments for many happy, blue-chip businesses.

Our Suppliers

The power behind our cleaning power

Our stockroom is packed with the world's leading names in commercial cleaning. We offer quality cleaning machines, janitorial equipment, cleaning consumables, and cleaning chemicals from both local and global brands.

Quality & Compliance

We don't compromise on cleaning, and we don't complicate it

Every business we work with is assured of our commitment to the highest levels of quality and compliance. Our Quality Policy, Health and Safety Policy, and Environmental Policy maintain the integrity of and continuously improve a Quality Management System that satisfies international requirements for ISO accreditation.
