HYGIENIC, &  
HYGIENE IS  
OUR BUSINESS**

## WELCOME TO INDUSTROCLEAN

Since 1968, Industroclean has been a leader in commercial cleaning products, delivering hygiene solutions to a range of leading South African businesses. Our wide product offering has every surface in your business covered, ensuring high hygiene standards. Always. We produce a collection of incredibly effective cleaning chemicals. We also stock some of the world's most admired cleaning machinery and offer spares, servicing, maintenance, and training. We know by keeping your business clean, your business can keep working 7 days a week, 365 days a year.

## WHAT WE OFFER

For over half a century, Industroclean has been a powerhouse in the commercial cleaning industry, delivering hygiene solutions to a range of leading South African businesses. We manufacture and distribute cleaning products and machinery of the highest quality around the country.

### A POWERHOUSE IN INDUSTRIAL CLEANING

We have led the industrial cleaning industry for over 50 years, offering businesses quality chemicals and machinery, backed by expertise and efficient service. We're constantly fine-tuning our offering to stay ahead of the changing needs of our customers and market. Our innovative cleaning products and solutions are backed by a strong sales and support network across the country. This means you always have access to technical support and spare parts. Everything we do ensures your business starts and stays hygienic without interruptions.

## WHO WE ARE & WHAT WE STAND FOR

### HYGIENE IS OUR PRIORITY, SO DOING BUSINESS CAN BE YOURS

Our family business was built on values like commitment, trust, and loyalty and continues to be guided by them today. Our leadership team is strong, young, and female, something we think sets us apart in the industry. Industroclean can provide everything you need to maintain your business' cleanliness, pass audits and create a safe, hygienic space. We're proud to partner with the best global and local brands in cleaning, and our impressive client list is proof that we deliver, on time, every time. We're able to do this across South Africa, thanks to our national network of servicing, stock, and expertise.

industroclean®

## OUR PURPOSE

Our purpose is to deliver the best possible customer experience and outcomes by providing dynamic, adaptable solutions to everyday cleaning challenges in commercial environments.

We've been doing this for more than 50 years, as a pioneer in industrial and commercial cleaning across Africa. We understand that a safe and clean workplace is imperative to a successful business. Authorities and the public hold businesses accountable for their hygiene standards, and maintaining the highest hygiene standards is paramount to your business' success.

Our specialised machinery, expert technical team, innovative chemicals, and quality cleaning consumables have led to superior hygienic environments for many happy, blue-chip businesses.

## OUR SUPPLIERS

### THE POWER BEHIND OUR CLEANING POWER

Our stockroom is packed with the world's leading names in commercial cleaning. We offer quality cleaning machines, janitorial equipment, cleaning consumables, and cleaning chemicals from both local and global brands.

## QUALITY & COMPLIANCE

Every business we work with is assured of our commitment to the highest levels of quality and compliance. Our Quality Policy, Health and Safety Policy, and Environmental Policy maintain the integrity of and continuously improve a Quality Management System that satisfies international requirements for ISO accreditation.

### CERTIFICATIONS

- > Eco-choice certificate
- > ISO 90012015 certification letter
- > NRCS registered disinfectants certificates
- > SABS 1828 certificates – cleaning chemicals for use in the food industry
- > SABS 1853 certificates – disinfectants and detergent disinfectants for use in the food industry
- > Halaal Certified - by the South African National Halaal Authority

## CLEANING CHEMICALS

Effective cleaning often comes down to the products you use. We're proud to offer a highly effective chemical range, manufactured at our production facility in Gauteng. Our cleaning chemicals are tailor-made for specific surfaces and applications. With a track record of more than 50 years, many businesses across the country trust Industroclean chemicals to do the job.

## GENERAL PURPOSE & DEEP CLEANING RANGE

Our line of professional general and deep cleaning chemicals are specifically tailored for commercial use. Our comprehensive range boasts a selection of top-quality chemicals, expertly formulated to cater to the unique needs of commercial buildings, healthcare facilities, industrial plants, educational institutions, and retail centres.

## FLOORCARE RANGE

Our floorcare chemicals are designed to meet the unique needs of a variety of floor types and industries, including retail, industrial, and healthcare settings. Our range of products include floor cleaners, sealers and strippers, all made with high-quality ingredients to ensure effectiveness, reliability, and ease of maintenance for your flooring investment.

industroclean®

# Envirocare

## ENVIRONMENTALLY FRIENDLY RANGE

Manufactured in South Africa and certified by Eco-Choice - Africa's leading consumer goods eco label initiative, we have done everything in our power to ensure that these products have a minimal carbon footprint, from the packaging, right down to the raw materials. Our Envirocare range proudly holds a type 1 Ecolabel.

## WAP AUTOCARE RANGE

Professional Cleaning Products  
for the Car Wash & Automotive  
Industry

## FOOD PRODUCTION RANGE

Maintaining a high standard of hygiene is critical for food production. Our quality range is specially formulated for use in food production and processing in areas such as abattoirs, butcheries, food processing plants and factories.

industroclean®

## PROFESSIONAL KITCHEN HYGIENE RANGE

Maintaining a high standard of hygiene is critical in food preparation areas. Our quality kitchen hygiene range is specifically formulated for use in restaurants, commercial kitchens, and other hospitality and retail environments.

## CLEANING MACHINES

## WHAT WE OFFER

If you want to increase the hygiene standards of your business significantly, you need a cleaning machine. Not only does the automation of traditional tasks like mopping create a cleaner working environment, but it also drives down costs on labour and chemicals, saving time and optimising productivity.

Our offering includes floorcare equipment such as professional scrubber driers, sweepers, vacuum cleaners, and high pressure washers. We offer the technologically advanced Nilfisk and Viper range, plus our very own Wap range including mobile and stationary hot and cold water high pressure washers, manufactured at our production facility in Johannesburg. If you need a machine to clean, we've got it.

## CLOTHS & HAND PADS

Our exceptional collection of professional cleaning cloths boast innovative designs, fabric compositions and certification that guarantee outstanding performance in high risk environments.

**CLEANING CONSUMABLES**

industroclean<sup>®</sup>

## CHICOPEE CLOTHS

# CHICOPEE

### COFFEE WIPES

The Coffee Towel is FCC certified for milk use and has distinct colors to prevent incorrect usage in HACCP processes. It is heat-resistant up to 250°C (ISO 12127 certified) and its open weave structure allows for effective dirt pickup, rinsing, and reuse, ensuring a consistently clean steam wand.

### LAVETTE PLUS

This high-quality cloth is strong, enhancing efficiency and waste reduction. It remains durable throughout the day and can be washed at 90°C without losing its cleaning ability. With its unique open structure and antibacterial properties, it collects maximum dirt, rinses easily, and stays fresh for extended periods.

### LAVETTE SUPER

This cloth's unique open structure ensures superior dirt pick-up and efficient absorption. Its antibacterial properties keep it clean and odor-free throughout the day. The cloth is durable and can withstand over 40 washes at 90°C without losing its cleaning ability. With maximum dirt collection and easy rinsability, the wipes remain fresh for extended periods.

## CHICOPEE CLOTHS

### J-CLOTH PLUS

The Chicopee J-Cloth® Plus, a market leader for 40 years, features a unique wavy texture for efficient dirt pickup. It's easy to rinse, dries quickly, lightweight, and stays clean and fresh for longer before disposal. With uncompromised quality, it improves efficiency, reduces waste, and meets HACCP standards for crucial hygiene. Fully certified for food contact, it's an ideal solution for short-term wiping.

### J-CLOTH PLUS BIODEGRADABLE

J-Cloth® Compostable reduces landfill waste, is biodegradable, and addresses waste management concerns. Its packaging and polybag are made of renewable materials and are also biodegradable and compostable. FCC certified, it is safe for use in foodservice establishments and follows HACCP norms for color coding to prevent cross-contamination. The wipe is compatible with various chemical solvents and can be disposed of in the food waste bin after rinsing.

### VERACLEAN CLEANROOM WIPES

Chicopee VeraClean Cleanroom wipes offer a reliable cleaning solution for critical production processes in various industries, including semiconductors, pharmaceuticals, and biotechnology. These wipes have low levels of ions and organic extractables, and are gamma-irradiated for bacterial elimination and sterilization. They are low linting, highly absorbent, and ideal for effective cleaning in critical environments.

## VILEDA CLOTHS & HANDPADS

**vileda**  
PROFESSIONAL

### VILEDA R-MICROTUFF SWIFT MICROFIBER CLOTHS

Introducing the r-MicroTuff Swift, our first 100% recycled cleaning cloth. It effortlessly removes greasy finger marks and tough dirt without chemicals, making it suitable for various surfaces and areas that require fast and effective cleaning. This versatile cloth works well with both pre-prepared and traditional wiping methods. Its key features include 100% Microfibre cleaning power, third-party tested removal of up to 99.99% of Bovine coronavirus from vinyl surfaces, high effectiveness in picking up particles, absorbency for spills, exceptional durability with up to 500 washes, and Nordic Swan Ecolabel certification

### VILEDA PVA NON PERFORATED CLOTH

Our high-quality PVA cloth is designed for easy cleaning on all surfaces, thanks to its good slippage. With excellent drying capabilities, there's no need for a second wipe. It is highly resistant to leaching and offers exceptional durability. Ideal for economic damp and maintenance cleaning, this cloth provides extra high absorbency, chemical resistance, and long-lasting performance. It is especially suited to the automotive industry.

### VILEDA HANDPAD STRONG

Choose Vileda for superior scouring quality. Unlike generic scourers, Vileda offers a noticeable difference in both quality and results. Their scourers are built to last, with every fibre coated in grit and resin, ensuring exceptional cleaning power throughout its lifetime. The strong resin-to-fibre bond ensures consistent performance. Made of rust-free and non-splintering nylon, Vileda scourers are easy to rinse and perfect for heavy-duty applications. Make the smart choice with Vileda for top-tier scouring performance.

## 3M MICROFIBER CLOTHS

### 3M MICROFIBER CLOTHS

These wipes offer efficient, lint-free cleaning on any surface, including delicate ones. They effectively remove dust, dirt, oil, and grease, and can be used with or without water or detergent. With exceptional durability, they can withstand up to 500 wash cycles at 95 °C, ensuring long-lasting use.

## 3M SCOURERS

**#96 GENERAL PURPOSE  
SCOURING PAD**

**#88 HEAVY DUTY POT  
& PAN SCOURER**

**PURPLE  
SCOURING PAD**

## CLEANING GLOVES

### VILEDA NATURAL LATEX GLOVES

Versatile and durable latex gloves designed for all-round cleaning tasks. Available in multiple colours for easy colour coding, these gloves provide superior protection and comfort with their 100% natural latex composition. The gloves feature absorbent, moisture-wicking foam that keeps your hands feeling fresh and dry, while the thicker latex membrane offers added protection against hot water. Benefit from their high durability, cost efficiency, anatomical comfort, chemical resistance and pure cotton flock lining for extra comfort.

These gloves are suitable for various cleaning tasks in General Building, Health Care, and HoReCa industries, and are CE Cat. III certified for high-risk mechanical protection according to EN 388:2016.

### VILEDA NITRILE GLOVES

Latex-free, high-quality, and durable for intense cleaning tasks, including chemicals and food handling. Available in multiple colours for easy coding, these gloves provide enhanced comfort, protection, and grip. They are machine washable, ensuring cleanliness, and made with latex-free nitrile for allergy prevention. Enjoy the benefits of durability, cost efficiency, anatomical comfort, chemical resistance, pure cotton flock lining, and colour-coded design for safety and hygiene compliance.

Suitable for various cleaning tasks, these gloves are CE Cat. III certified for high-risk mechanical protection.”

## VIKAN BRUSHWARE

Introducing Vikan's premium range of brushware. These products are specifically designed to meet the highest food safety standards, making them perfect for use in retail, restaurants, and food production environments. With a wide selection of sizes and materials, this brushware offers versatile cleaning solutions for various tasks.

- > **Ergonomically designed**
- > **Food safety documentation**
- > **No crevices**
- > **Smooth surface**
- > **Easy to clean and dismantle**
- > **Food safe material - no wood, glass, non-toxic**
- > **Well constructed - not painted or coated, no foamed materials**
- > **Non absorbent**
- > **Appropriate chemical and temperature resistant**
- > **All brushware available in 12 colours - colour coding**

## FLOOR PADS

### 3M FLOOR PADS

We offer the 3M range of stripping, burnishing, buffing, polishing and cleaning pads for various floor types. Get a professional quality finish, every time with the long-lasting high-performance 3M Floor Pads. Each pad is engineered to deliver optimal results on a specific cleaning and maintenance task, helping you save time and making it easier to keep your floors looking their very best.

3M pads incorporate the latest technology in abrasives, the pads are composed of thin conformable fibres that are uniformly coated with minerals and tough water-based resins throughout the pad, not just on the surface of it, this produces more consistent results and maximises pad to floor contact.

## COLOUR CODED BINS

### VILED A HERA PEDAL BINS

Introducing the HACCP-compliant pedal bins from our Hera range. These bins are designed to meet the recommendations for 'hands-free' operation, making them perfect for various applications, from healthcare patient rooms to food preparation areas where preventing cross-contamination is crucial.

The slow closing lid ensures quiet operation, while the integrated bag holder, anti-slip rubber feet, and overlapping lid design offers an added advantages. Available in 35l, 60l, and 85l sizes, and six colors. The Hera range provides a range of benefits such as hands-free operation, easy cleaning, odor containment, and more.

## INDUSTROCLEAN MATTING

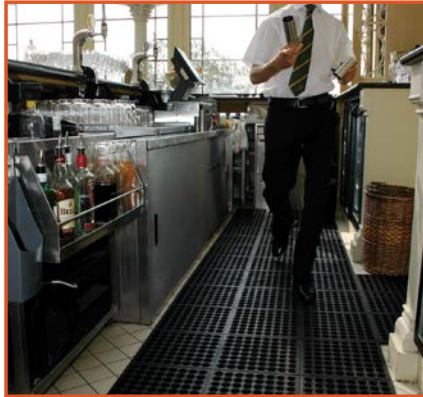

Whether you're in need of top-quality and long-lasting entrance matting, reliable catering and automotive matting, or efficient disinfectant matting, we have it all covered.

Our products are meticulously designed to meet the demands of various industries and applications.
