**PROFESSIONAL CLEANING
SOLUTIONS FOR HEALTHCARE**

industroclean®

As South Africa's leading provider of healthcare cleaning solutions, Industroclean ensures the highest standards of hygiene in hospitals, clinics, and care facilities. Our expertise supports effective infection prevention and control through industry-best cleaning practices.

We offer comprehensive solutions, including professional-grade chemicals, consumables, equipment, and machinery for every area within a healthcare facility. With specialized knowledge in floor care, we provide tailored solutions for various flooring types, including vinyl, ensuring optimal cleanliness and longevity. Our commitment extends beyond products - we offer expert guidance and ongoing support to help maintain exceptional hygiene standards.

CREATING A CLEANER, SAFER ENVIRONMENT FOR PATIENTS

HEALTHCARE CLEANING MANUAL

Industroclean, in collaboration with MS Consulting, has developed an Environmental Cleaning Procedures for Healthcare Facilities document.

This guide helps Environmental Cleaning Departments establish effective cleaning procedures and standards to maintain exceptional hygiene in healthcare settings.

A free preview is available on our website, or you can purchase the full document for a comprehensive approach to maintaining the highest hygiene standards.

CLEANING CHEMICALS

Industroclean provides a comprehensive and trusted range of professional cleaning chemicals tailored for the healthcare sector. Our solutions include general purpose cleaners, high performance disinfectants, and specialised floor care products for stripping and sealing.

Each formulation is designed to meet stringent hygiene standards, ensuring optimal cleanliness and infection control. Additionally, all our cleaning chemicals are backed by detailed safety data sheets, offering full transparency and compliance with health and safety regulations.

FILMOP TOP DOWN SYSTEM

We offer the Filmop Top-Down system, a hygienic and efficient healthcare cleaning solution. Its closed-lid design prevents cross-contamination, ensures precise cleaning solution dosing, and keeps mops pre-soaked for improved efficiency and hygiene.

MASSLINN SWEEPING SYSTEM

We offer the original Masslinn wipes, the superior and safer cleaning method specifically designed for hospitals and healthcare environments. Ideal for preventing cross-contamination, Masslinn ensures reliable and effective dry dusting in sensitive settings.

- > **100% viscose** - natural, bio-degradable ingredient
- > **Impregnated** - for excellent pick-up of dust and dirt
- > **Disposable** - no risks of cross contamination; dust and dirt are thrown away
- > **Available in 3 variants**- suitable for all cleaning tasks
- > **Flexible and strong** - will not tear during use
- > **Re-sealable package** - wipes do not dry out and stay fresh for direct use

CLEANING CLOTHS & SCOURERS

WHY CHOOSE CHICOPEE CLOTHS FOR HEALTHCARE

Durable & Reusable: Chicopee cloths like Lavette Super and Lavette Plus are machine washable (up to 40 washes at 90°C), ensuring long-term use and cost savings.

Superior Absorbency: With their unique structure, these cloths provide excellent dirt pickup and absorbency, perfect for healthcare environments.

Hygienic & Antibacterial: Built-in antibacterial properties keep cloths odour-free and clean, even after repeated use.

Quick Drying: Easy to rinse and dries fast.

Certified for Healthcare: J-Cloth® Plus meets HACCP standards and is ideal for areas requiring strict hygiene protocols.

Waste Reduction: Reusable cloths help reduce waste, making them an eco-friendly and cost-effective solution.

Colour Coding for Hygiene: Chicopee cloths come in a range of colours, allowing for effective colour coding to prevent cross-contamination and ensure proper cleaning protocols across different areas.

LAVETTE PLUS

LAVETTE SUPER

J-CLOTH PLUS

3M MICROFIBER CLOTHS

These wipes offer efficient, lint-free cleaning on any surface, including delicate ones.

They effectively remove dust, dirt, oil, and grease, and can be used with or without water or detergent. With exceptional durability, they can withstand up to 500 wash cycles at 95 °C, ensuring long-lasting use.
